

Quinn Art Therapy, PLLC  
Theresa Quinn, Registered Art Therapist (ATR)  
Licensed Marriage and Family Therapist (LMFT)  
Michigan License #4101006377  
National Provider Identification # 1083730147

For Mental Health Professionals and Community Mental Health Agencies

### Individuals and Families

I have experience providing adjunct art therapy services. I can work in collaboration with you to further your client's progress toward established clinical goals for a specified period of time or on a continuing basis. With client release forms in place, we can coordinate our care to provide your client with a holistic and active psychotherapy experience.

### Groups

I have experience co-facilitating ongoing therapy groups as well as creating population - and issue-specific art therapy groups. These groups have been open, closed, exploratory, task-oriented, for adults or for children. I can co-create a new therapy group with you, or come to your established group as a co-facilitator for a specified number of art therapy sessions toward a specific clinical goal.

Please do not hesitate to contact me if you and your client are intrigued by the idea of adding art therapy to the treatment plan. I will gladly speak by phone with you and your client to discuss the possibilities and the benefits of our collaborating on their behalf.
